

MANUAL HANDLING & PEOPLE SKILLS

HLTWHS005 – Conduct manual tasks safely

Get the required accreditation needed for health care workers to work on floor!

Learn how to safely identify, plan and perform manual handling tasks to assist in maintaining an injury-free workplace. It is a requirement of the healthcare industry that all staff are properly trained within the key points of body mechanics for their customers and also themselves within using mobility and independence equipment. Receive both an Accredited Statement of Attainment with theoretical assessment and also a Verification of Achievement with practical hands on manual handling training.

Delivered by industry qualified professionals with real world experience to make sure you get the outcome you need!

This 4 hour program is available for face-to-face on campus delivery or onsite using your equipment. Regional locations subject to travel fees.
